

FRONT

BACK

The AMA converts incoming DP Alt Mode audio into a true USB audio host, so that a supported USB device will enumerate as an audio output.

KEY FEATURES

- USB-C input and output connections with optional pass through mode.
- Enables audio output support when using an RTK-AM1 with Cisco codecs.
- 30VDC pass output eliminates the need for a second power adapter when using an RTK-AM1.
- RS-232 port for communicating with an RTK-AM1.
- Simple Plug & Play installation, no programming or drivers required.

TECHNICAL SPECS

- [2] USB Type-C: Locking USB-C jack supporting USB Video, audio, and DisplayPort Alt-mode video.
- Video Format: DisplayPort 1.2a Interface, 4K@60 4:4:4, HDCP v2.3
- USB Pass-through Support: USB 3.1 Gen 2
- USB Tier Usage: No tiers.
- Power In: 30VDC, 3A Max, 5.5mmx2.5mm Jack
- Power Out: 30VDC, 2A Max, 6.5x3.0mm DC Jack
